

The GYSMATIC 9.13 is a helmet suitable for all arc welding applications:

MMA up to 400A

TIG from 5A up to 250A

MIG/MAG up to 500A

Multi-purpose

Its LCD filter protects the user even at low intensity (**from 5A**) it has a reaction time of **0.10 ms** and offers full control of Shade, Sensitivity and Delay parameters.

Comfortable

This helmet offers a very wide field of vision, continuous protection with its automatic solar panel and flexible adjustment for the head band.

Weight: 450g

Conditions for use: -10°C < +55°C

DIN: 1 / 1 / 1 / 2

- **4 sensors**
- Working range: 5A to 500A
- Arcing reaction time ≤ 0.01 ms
- Initial shade: DIN 4
- Permanent UV protection: DIN 15

Power supply: solar + batteries

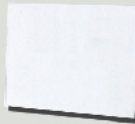

Very wide field of vision: **100 x 60 mm**

- Switch for **grinding mode**
- Settings
 - ✓ SHADE: Variable from 9 to 13
 - ✓ SENSITIVITY: sensors adjustment
 - ✓ DELAY: time to return to light state from 0.1 to 1s

CONSUMABLES

Ref.043886		10 internal lenses (106x66)
Ref.043893		10 external lenses (114x133)

OPTION

Ref.042780		Magnifying glasses x 2
