

Left Cutting Aviation Snips

LEFT CUTTING AVIATION SNIPS

- Serrated cutting edges prevent slippage when cutting.
- Thumb and forefinger slots for increased comfort and less fatigue. Allows user to push through sheet metal with ease with less risk of cutting oneself.
- Torsion spring opens jaws automatically during cutting for faster cutting action and less fatigue work.
- Compound leverage action for easier cutting through thicker materials.
- One hand locking mechanism for increased productivity on the jobsite.
- Flush slimline design for non-snagging in material.
- Aviation snips: For short, straight and shaped cuts. Ideal for narrow radius cuts and notch cuts.
- Triple cutting direction identification – on the head, handle and by colour coded handle.
- Ergonomic and durable overmolded grips add comfort and last longer.
