

**Included in the TURBOPlane™ Kit (IND.FG.400):**

- 1 x TURBOPlane™ Blade
- 1 x Nylon Reducing Washer (AUS, NZ, UK only)
- 2 x Spacer Washer

## TURBOPlane™

The Arbortech TURBOPlane™ is a universal wood shaping blade that can be used to create different shapes, profiles and finishes. It can be used flat to create large level surfaces, or used at angles to provide shallow cuts for fine shaping, planing and sculpting.

- Wide cutting edge tooth leaves a **smooth finish** requiring **minimal sanding**
- Durable carbide teeth ensuring **long blade life** even in hard woods
- **Easy to sharpen** using a diamond 400 grit diamond file
- Excellent **control, balance** and **safety** (no cutting teeth on blade periphery)
- Freehand power carving in **hard** and **soft timber**
- **Rapid sculpting, planing** and **trimming**
- Can be used flat to create **level surfaces** or **edging**, or at an angle for free-formed **convex** and **concave shapes**
- Can be used with guides and templates for **accuracy**
- Attaches to standard 115mm (4 ½") and 125mm (5") angle grinders
- Works best with **Power Carving Unit™**
