

M12 SICO26-0

M12™ SEWER INSPECTION CAMERA 26 M WITH ONE-KEY™

The modular MILWAUKEE® camera system allows the user to pick the camera reel that suits the most their specific needs on the job site

The new 20 mm self-leveling HD camera centers itself automatically and guarantees top-class images

26 m long, 7.25 mm high flexible push rod to run through 40 mm 90° bends

Integrated Smart-Hub with a USBport for data storage

Wi-Fi functionality enables the sewer inspection camera to transfer data via USB-A, USB-C and over the air

With it's small footprint, the camera is easy to store in any van and can be used in the narrowest of spaces

Built-in sonde for easy locating: 512 and 640 Hz to be used with all common locators

Can be used with M12™ & M18™ monitor and the pipeline Inspection app

Fully enclosed reels for better mess containment

Top handle for easier transportation

Rubber base for best grip and surface protection

Best LED geometry for optimum illumination of 32 mm - 100 mm drains

ONE-KEY™ tool tracking & security offers a free of charge cloud-based tracking network and inventory management platform for your tools.

ONE-KEY™ also features a remote locking functionality

Flexible battery system: works with all MILWAUKEE® M12™ batteries
