

M18 FUEL™

M18 FRGRO114-OC

M18 FUEL™ ROLL GROOVER

- Worlds first portable cordless roll groover boosts productivity for sprinkler and pipe fitters with a grooving capacity from 1 ¼"(DN32) - 4" (DN100)
- Fast setup time and full portability delivers a new level at on-site grooving vs traditional stationary or manual tools
- Allows grooving in all orientations on installed pipes, a pipe stand or stationary in benchtop mode
- Delivers effortless grooving experience thanks to easy-to-use groove controls
- Simple selection of pipe size, material and wall thickness for most consistent grooving results
- Delivers consistent results repeatedly, minimizing guess-and-check when grooving a large number of pipes
- Outstanding runtime of up to 50 Grooves on an average 2.5" thin-walled pipe per M18™FORGE™8Ah battery pack
- Hands Free operation, tool rotates and stops automatically to make the groove
- Three dedicated stop buttons providing additional safety
- Allows for repetitive use without the need to make any adjustments saving time and creating consistent results
- Foldable handle simplifies carrying the tool across the jobsite
- Flexible battery system: works with all MILWAUKEE® M18™ batteries
