

Included in the Precision Carving System™
(PCS.FG.1000):

- Mini Ball Gouge
- Precision Drum Sander
- Precision Barrel Carver
- Universal Base
- Spiral sanders 60 and 120 grit
- 2 x Allen keys

PRECISION CARVING SYSTEM™

The Precision Carving System™ is the smallest attachment in the Power Carving Range. Highlighted by the Mini Ball Gouge, this 3-piece set will open the door to more intricate power carving, detailing and texturing. It includes a Universal Base that, when fitted to the Power Carving Unit™ or a 115mm (4 ½") and 125mm (5") angle grinders with a M14 spindle, allows users to interchange the precision carving and sanding bits to carve smaller radii, intricate details and fine textures in wood.

MINI BALL GOUGE

Based on the popular Ball Gouge™, this scaled down version enables users to shape smaller radii and get into even tighter spaces. Carve smooth hollows and dips on a smaller scale.

PRECISION BARREL CARVER

Controlled carving on the outside of the barrel can create right angle corners, and provides great access into tight spaces. The Precision Barrel Carver can be used on the side at an angle or upright to bore down into wood.

PRECISION DRUM SANDER

Finish where the Barrel Carver leaves off with the Drum Sander's high and low grit sanders. Ideal for finishing and polishing after carving with the Barrel Carver.

UNIVERSAL BASE

Engineered to fit the Power Carving Unit™ or any quality M14 angle grinder. This base will allow users to easily interchange the 3 different precision bits, ultimately transforming their angle grinders into precision carving machines. The slim base design provides the precision bits with additional reach.
